## BUY or LEASE

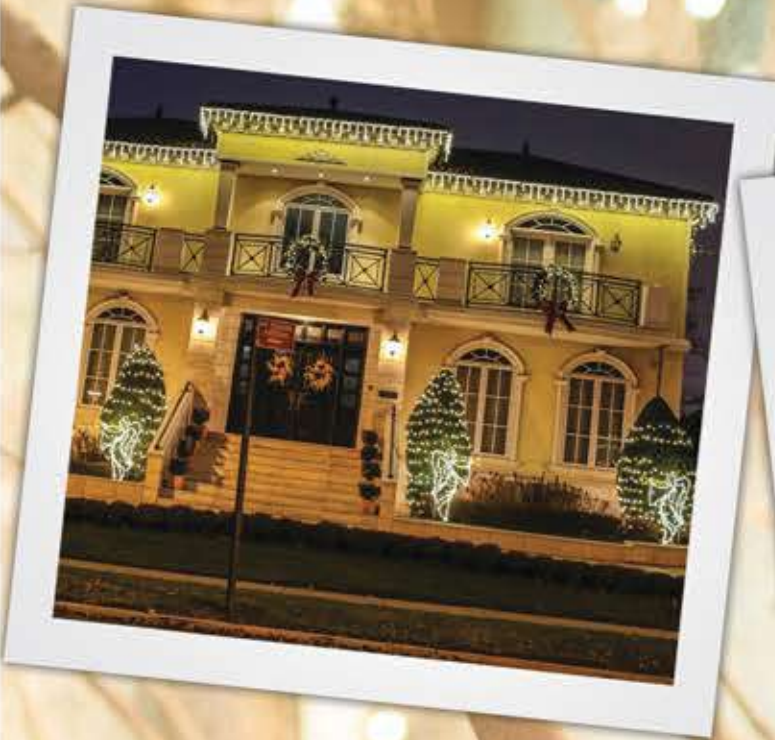

What is the BEST option for you?

DON'T BE FOOLED - though purchasing your lights and holiday displays may be a higher cost for the first year, that investment is well worth it year after year. Once you obtain your initial design scene, your large purchase is over. Every year afterwards, Pacific's Holiday Team will contact you to set up and take down the lights and displays for a fraction of the cost of LEASING or RENTING. Pacific even offers storage, if you prefer.

When leasing or renting holiday displays, the cost per year NEVER decreases and you must pay for them year after year. When you purchase your lights and displays through Pacific, you OWN your material. Companies who lease hold the material, and never give you the lights if you don't sign up for their expensive renewal contracts. They also include the price of storage, even if you don't need it. Don't fall for sales gimmicks!

It's simple math - a onetime purchase for a few thousand dollars, along with scheduled follow up service year after year for only a few hundred dollars far outweighs leasing or renting, and paying thousands of dollars every year, and never owning anything!
